

SESSION DELIVERY SCHEDULE

Applied GenAI Engineering Program

BATCH 2026 — JUNE COHORT

18

SESSIONS

16

WEEKS

4

PROJECTS

Sunday

EVERY WEEK

9:00 AM IST ALL SESSIONS Jun – Oct 2026 DURATION

KEY

Regular — 2 hours (9:00–11:00 AM)

Portfolio project delivery

Holiday / No session

PRE-PROGRAM Python Foundations · For absolute beginners · No prior experience needed

SESSION	DATE	TOPIC	TIME	TYPE
Day 0	21 June SUNDAY	PYTHON FOUNDATIONS Variables, Data Types, Lists, Dictionaries, Loops, Functions, Imports & Error Handling	9:00 – 11:00 AM	2 Hours

DAY 0 — MODULE BREAKDOWN

00:00 – 00:20	The Bare Essentials Variables, Data Types, print(), f-strings
00:20 – 00:50	The GenAI Data Structures Lists & Dictionaries — the API message format
00:50 – 01:05	Control Flow if / elif / else — routing logic for AI apps
01:05 – 01:25	Iteration for loops — streaming responses & chat history
01:25 – 01:45	Reusability Functions with arguments & return values
01:45 – 02:00	The Black Box Concepts Imports, try/except, dot notation

MONTH 1 Foundations

Setup · How LLMs Work · Prompt Engineering · First Deployed Project

SESSION	DATE	TOPIC	TIME	TYPE
01	28 June SUNDAY	WEEK 1 Professional Setup & Python for AI — Environment, .env Security, Type Hints, Decorators & First API Call	9:00 – 11:00 AM	2 Hours
02	5 July SUNDAY	WEEK 2 How LLMs Work — Next-Token Prediction, Transformer Intuition, Tokens, Context Windows & Generation Parameters	9:00 – 11:00 AM	2 Hours
03	12 July SUNDAY	WEEK 3 Prompt Engineering — Zero-shot, Few-shot, Chain-of-Thought, Structured Output, Prompt Templates & JSON Enforcement	9:00 – 11:00 AM	2 Hours
04	19 July SUNDAY	WEEK 4 · PROJECT DELIVERY Smart CLI Chatbot — History, Persona Switching, Cost Tracking, Streaming & Groq Alternative	9:00 – 11:00 AM	2 Hours

PROJECT 1

MONTH 2 LangChain + RAG

Pipelines · Memory · Embeddings · Vector Search · Document Q&A App

SESSION	DATE	TOPIC	TIME	TYPE
05	26 July SUNDAY	WEEK 5 LangChain Fundamentals — LCEL, Pipe Operator, ChatPromptTemplate, Pydantic Output Parsers & Auto-Retry	9:00 – 11:00 AM	2 Hours
06	2 August SUNDAY	WEEK 6 Memory + Conversational AI — Manual History with HumanMessage/AIMessage, MessagesPlaceholder & trim_messages	9:00 – 11:00 AM	2 Hours
07	9 August SUNDAY	WEEK 7 Embeddings — Text as Numbers, Cosine Similarity, FAISS vs ChromaDB, Semantic Search & Metadata Filtering	9:00 – 11:00 AM	2 Hours
08	16 August SUNDAY	WEEK 8 RAG — Full Pipeline End to End: Load → Split → Embed → Store → Retrieve → Generate, Multi-query & Source Citations	9:00 – 11:00 AM	2 Hours
09	23 August SUNDAY	WEEK 9 · PROJECT DELIVERY Document Q&A Web App — PDF Upload, RAG Pipeline, Streaming, Source Citations, Deployed to Streamlit Cloud	9:00 – 11:00 AM	2 Hours

PROJECT 2

MONTH 3 Agents + Orchestration

AI Agents · Custom Tools · LangGraph · Multi-Agent · MCP

SESSION	DATE	TOPIC	TIME	TYPE
10	30 August SUNDAY	WEEK 10 AI Agents + Custom Tools — Decision Loop, Tool Anatomy, @tool Decorator, DuckDuckGo Search, Failure Modes & Max Iterations	9:00 – 11:00 AM	2 Hours
11	6 September SUNDAY	WEEK 11 LangGraph — Nodes, Edges, State, Conditional Routing, Checkpointing, ReAct Agent & LangSmith Observability	9:00 – 11:00 AM	2 Hours
12	13 September SUNDAY	WEEK 12 Multi-Agent Systems — Supervisor Pattern, Specialist Agents, MCP Protocol, Build an MCP Server & Connect to Agents	9:00 – 11:00 AM	2 Hours
13	20 September SUNDAY	WEEK 13 · PROJECT DELIVERY AI Research Agent — LangGraph Workflow, Web Search, Synthesis, Structured Report & LangSmith Tracing	9:00 – 11:00 AM	2 Hours

PROJECT 3

MONTH 4 Production + Getting Hired

FastAPI · Docker · Cloud Deployment · Security · Career Launch

SESSION	DATE	TOPIC	TIME	TYPE
14	27 September SUNDAY	WEEK 14 FastAPI for AI — Pydantic Models, Streaming Endpoints, API Key Authentication, CORS Configuration & Auto Docs	9:00 – 11:00 AM	2 Hours
—	4 October SUNDAY	Holiday — No Session		
15	11 October SUNDAY	WEEK 15 Docker + Cloud Deployment — Dockerfile, Docker Compose, Deploy to Render/Railway, Environment Variables & Health Check	9:00 – 11:00 AM	2 Hours
16	18 October SUNDAY	WEEK 16 · PROJECT DELIVERY Capstone Deployment — FastAPI + Docker + Cloud + Security Layer + Professional README & Live URL	9:00 – 11:00 AM	2 Hours
17	25 October SUNDAY	CAREER LAUNCH Resume, GitHub Portfolio, LinkedIn Optimization & Mock Interview — Closing Session	9:00 – 11:00 AM	2 Hours

NOTES Applied GenAI Engineering Program

June 2026 Batch · 21 June – 25 October · Schedule version 1.0

- All sessions run on Sundays at 9:00 AM IST. All sessions are 2 hours (9:00–11:00 AM).
- Portfolio projects are built during class — students arrive with all the skills, the session assembles them into a deployed app.
- If a session is missed, the recording will be shared within 24 hours. Review it before the next session.
- This schedule may be adjusted slightly. Changes will be communicated via the WhatsApp group with at least 72 hours' notice.
- All assessment and project deadlines are end of the delivery session day (11:59 PM IST).
